Public Comments using WebEx

If you would like to make public comment, on the WebEx screen, please “raise your hand” as follows:

To use the feature:

1. Find your name on the participant list, and hover over your name. A Raise Hand icon will appear.
2. Click on the Raise Hand button which will place a small hand icon next to your name in the participant list.

3. Click on the Lower Hand button to withdraw the request.

If there are many raised hands, the moderator will call on participants in the order in which the requests were received.

Your name will be called when it is your turn to comment. The host will unmute your line automatically, and you must turn on your video.

Public Comments using phone only

If you would like to make a comment, please press *3 on your phone to “raise your hand.” Webex will acknowledge that your hand has been raised and to please wait until the host calls on you. Raising your hand signals to the host that you would like to provide public comment and you will be added to the list.

We apologize, but we will not be able to call you by name or the last four digits of your telephone number since these are not provided by Webex for phone only participants. Instead, we will announce that a caller wishes to make a comment and unmute each caller in turn.

For all commenters

Please tell the Board your name when commenting and adhere to the speaker time limit so that all comments may be heard.

Emailed comments that are intended for the public hearing and regular Board meeting and are received after 10:00 a.m. will be circulated to Board members after the meeting and read aloud at the next meeting.
